

Corrugated and sandwich roof | insertion system

Insertion system with modules installed in portrait

Easy, stable and flexible

- components usable across different roof types
- C-rail also acts as a cable channel
- mounting modules in portrait or in landscape
- insertion rail in blank and black anodized – color matching the module

product variants

- also suitable for sandwich and trapezoidal metal roofs
- stock screws for wooden and steel purlins
- stock screws for wood available in M10 and M12

Your benefits

- high-end installation aesthetics and time-efficient mounting thanks to insertion technology
- completely pre-assembled stock screws with centric load distribution
- big span lengths possible (C-rail 71-2 / C-rail 95-3)
- tension-free and floating module mounting

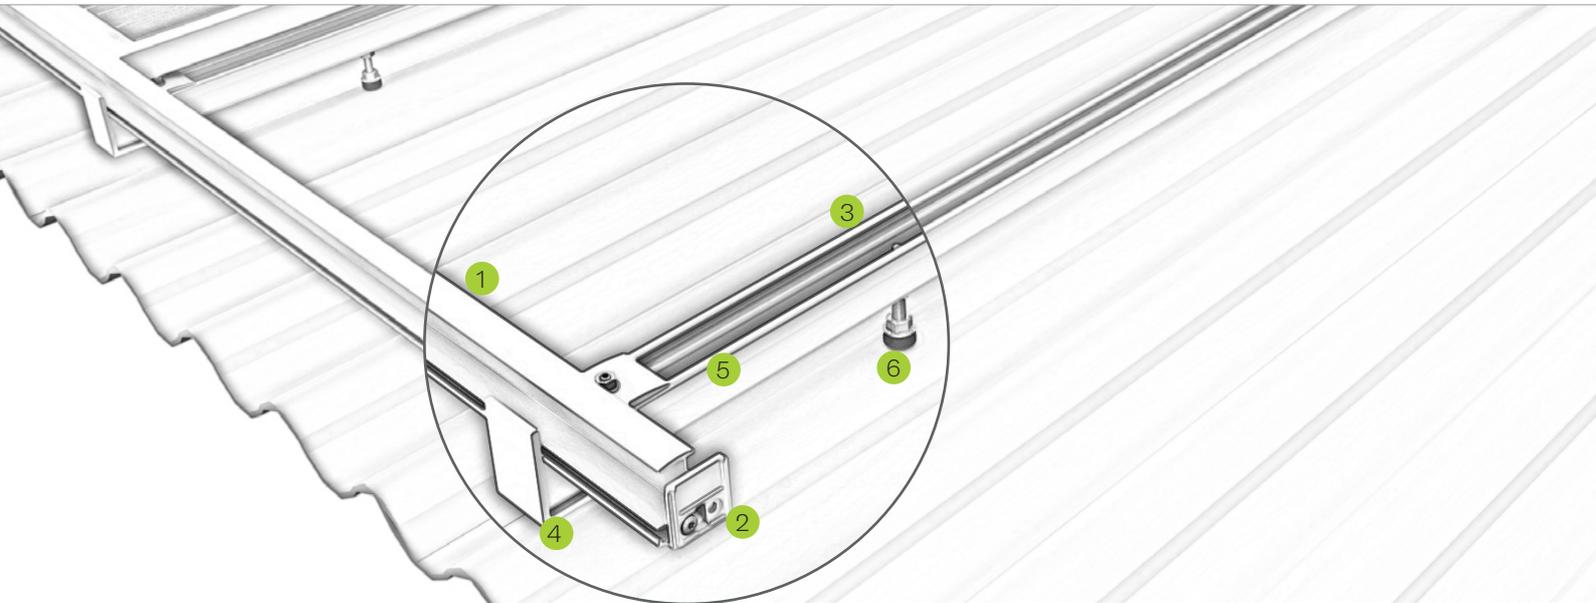

C-rail for various spans

C-rail as cable channel

Fixation insertion rail to C-rail

Pic Designation

- 1
Insertion rail
 - insertion rails in blank/black anodized for frame heights
 - tension-free and floating module mounting
- 2
Edge stop
 - color-coordinated with the insertion rail
 - prevents modules from slipping out
- 3
C-rail
 - available in different strength and lengths
 - can be stepped on throughout installation
- 4
End cap
 - for optically tidy rail ends
 - color-coordinated with the rail
- 5
Cross-rail connector
 - safe connection due to force and form closure
 - completely pre-assembled
- 6
Stock screw
 - high load capacity due to centric load distribution
 - completely pre-assembled
