

Tile roof | insertion system top-fix

Insertion system with modules installed in portrait

Position, insert – finished!

- components usable across different roof types
- narrow tile gap and centric load distribution
- mounting modules in portrait or in landscape
- insertion rail in blank and black anodized – color matching the module

product variants

- flex roof hook for low loads
- roof hook versions for 40mm battens available

Your benefits

- high-end installation aesthetics and time-efficient thanks to insertion technology
- three-way adjustable roof hook to level out uneven roofs, for different tile strengths and shapes
- tension-free and floating module mounting
- the C-rail also acts as a cable channel

Height-adjustable flex roof hook set

Rail connector insertion rail

Closing insertion rail and C-rail

Pic Designation

- 1 **Insertion rail**
 - Insertion rails in blank/black anodized for frame heights
 - Tension-freemounting
- 2 **Edge stop**
 - color-coordinated with the insertion rail
 - prevents modules from slipping out
- 3 **C-rail**
 - available in different strength and lengths
 - can be stepped on throughout installation
- 4 **Cross-rail connector**
 - safe connection due to force and form closure
 - completely pre-assembled
- 5 **Roof hook**
 - three-way adjustable for perfect installations
 - various roof hooks for low and high load situations
- 6 **Screws**
 - building authority-approved
 - Ø 6 / 8 mm available in different lengths

Light roof hooks for narrow rafters
