

Data collection sheet for Facade System

Please complete the entire data collection Sheet. Send us all the plans, sketches and pictures. All information relevant for planning (Maintenance Aisles, Lightning Protection, Shade Sources etc.) have to be given in a facade sketch.

Customer Data and Project Name	
Company:	
Contact Details:	
Project name and address:	

Environment (Alternative: Determination with address of plant site)					
Terrain Category:	I Sea, coastal sea	II Rural	II-III Residential area (mixed area)	III Residential area / forest	IV City
Additional terrain information:	Inland	Coast	Island	Altitude (m ASL):	
Wind load zone:	1	2	3	4	
Direct load specification (kN/m ²)	Wind load:		Snow load zone:		1
					1a
					2
					3
					3a
			Snow load:		

Facade specifications	
Facade length (m):	
Facade width (m):	
Facade height (m):	
Building height (m):	
Building orient. towards north:	
Coldfacade:	yes <input type="checkbox"/> no <input type="checkbox"/>
Wall material:	
Wall mounting:	
Thread type:	
	
	Wall thickness (cm):
	Tensile load capacity of fastening (kN):
	Shear strength of fastening (kN):

Modules			
Module type*:		Wp:	
Module length (mm):		Module width (mm):	
Frame colour:	black <input type="checkbox"/> blank <input type="checkbox"/>	Datasheet attached:	yes <input type="checkbox"/> no <input type="checkbox"/>
Item No.*:		Frame height (mm):	

*When selecting a module from our module portfolio, the module type and our item number are sufficient

Mounting system			
Modul orientation:	 portrait  landscape	Rail connection:	 yes
System size (kW):		Modules (amount):	
Columns (amount):		Rows (amount):	
Area (m ²):
